WORK EXPERIENCE

Kyrotics (Software Development Engineer Intern – Mobile Development, Flutter)

Jul 2025 – Jan 2026

- Engineered a DPDP-compliant enterprise document exchange platform using **Flutter, Node.js, MongoDB, and Socket.IO**; onboarded **500+ pilot users** with no data stored in any cloud or third-party database.
- Configured a **real-time backend** with **Firebase OTP auth** and **hybrid AES-RSA encryption**, enabling **secure P2P file transfer** with 45% lower latency and 99% auth success rate.
- Integrated a **Hive-powered offline-first** storage engine and **Polygon blockchain** for immutable audit trails and consent management, ensuring full DPDP regulatory compliance.

Medhwan (Flutter Developer Intern – Mobile Application Development)

Mar 2025 – Jul 2025

- Delivered a scalable cross-platform EdTech mobile application using **Flutter, Firebase, Node.js, and MongoDB**, deployed to **200+ pilot users**.
- Architected **RESTful APIs** with **Riverpod state management**, boosting backend performance by **30%** and enabling **real-time data synchronization**.
- Optimized server-side **pagination** and local storage system using **Hive** and **SharedPreferences** for **10,000+ records**, cutting data latency by **25%**.

PROJECTS

Unnati Siksha: EdTech Platform for Underprivileged Students

Dec 2025

Full-stack mobile application with role-based access control | Flutter, Node.js, Express.js, MongoDB, JWT, Twilio

- Spearheaded a scalable EdTech mobile platform enabling students to access lectures, notes, and raise doubts with volunteer support.
- Implemented **REST APIs** using **Node.js** and **Express** with **JWT authentication** and **Twilio OTP** for secure onboarding; enforced **role-based access control** (Student, Volunteer, Admin) with centralized admin management.
- Leveraged **MongoDB** and **ImageKit** for efficient data storage and media management across the platform.

Expense Tracker App

2024

Cross-platform Flutter finance management application | Flutter, Firebase, SQLite, Firestore

- Launched a cross-platform expense tracker with **Firebase Authentication** (Email/Google), persistent sessions, transaction categorization, and **real-time balance tracking**.
- Incorporated **SQLite** for local storage and **Firestore** for cloud synchronization; designed transaction history with **swipe-to-delete** and detailed analytics views, improving UX.

ACHIEVEMENTS

- HackQuest'25 – BIT Mesra: 1st/70+ teams** (24h). Shipped a unified developer platform integrating GitHub, MS Teams, Slack, Notion, and Google Workspace.
- Hackfest'25 – IIT ISM Dhanbad: 2nd** in problem statement; delivered a real-time audience sentiment monitoring system with admin dashboard relay.
- Hacktopia'26 – MLH Hackathon: Top 5 overall + won Best All-Boys Team** track in a 24-hour offline hackathon.
- Hacktopia'26 – TNP, IIIT Bhagalpur: 3rd** place (24h); crafted a smart institutional file tracking system.
- Smart India Hackathon 2024 (SIH1645): 2nd/50+ teams** as team lead; conceptualized and launched a coal miner safety monitoring system.
- Competitive Programming: 650+ problems** solved (450+ LeetCode); **3-star CodeChef** (rating 1602); global rank **73** in Starters 193; proficient in Dynamic Programming, Graphs, Trees, and Hashing.
